

FATHIMA RINSHA AK

MERN Stack Developer

Calicut, Kerala — rinshaa279@gmail.com — +91 9961634340 — linkedin.com/in/fathima-rinsha-ak-ba2b13373

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in developing RESTful APIs, secure authentication systems, role-based access control, and responsive user interfaces. Experienced with modern JavaScript development, state management, API integration, and database design. Passionate about building clean, efficient, and user-focused applications.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux, React Router

Backend: Node.js, Express.js, JWT Authentication, REST APIs, Google OAuth

Database: MongoDB, Mongoose

Tools & Libraries: Git, GitHub, Axios, Formik, Yup, NodeMailer

Concepts: MVC Architecture, Role-Based Access Control, API Integration, Responsive Design, State Management

PROJECTS

Glanzio E-Commerce Platform — MERN Stack, JWT, Redux

- Developed a full-stack e-commerce application using MongoDB, Express.js, React.js, and Node.js.
- Designed and implemented RESTful APIs for product management, cart operations, authentication, and order processing.
- Implemented secure JWT-based authentication and authorization for user account management.
- Integrated MongoDB for efficient storage and management of users, products, and order data.
- Built responsive and reusable frontend components with seamless frontend-backend integration.
- Improved application performance and user experience through optimized rendering and state management.

Learnify — MERN Stack, Redux, JWT, Tailwind CSS

Ongoing

- Developing a full-stack educational platform supporting Admin, Instructor, and Student workflows.
- Implemented secure authentication and authorization using JWT, Google OAuth, OTP verification, and role-based access control (RBAC).
- Designed and developed RESTful APIs for course management, enrollments, exams, grading, and admin operations.
- Built responsive and dynamic frontend interfaces using React.js, Tailwind CSS, Redux Toolkit, and React Router.
- Integrated Axios for API communication and Formik with Yup for efficient form handling and validation.
- Implemented certificate generation, email notification workflows, and analytics dashboards using Recharts.
- Structured MongoDB schemas for users, courses, lessons, enrollments, exams, certificates, and reviews.
- Designed scalable architecture for future real-time chat and live session features using WebSocket concepts.

EXPERIENCE

MERN Stack Intern — Bridgeon

Aug 2025 – Present

- Developed responsive and reusable UI components using React.js, JavaScript, and Tailwind CSS.
- Integrated frontend applications with backend RESTful APIs to support seamless data flow and user interactions.
- Worked with Node.js, Express.js, and MongoDB to implement backend features and CRUD functionalities.
- Assisted in implementing JWT-based authentication and role-based access control for secure application access.

ACHIEVEMENTS

- Solved 60+ coding problems on LeetCode covering arrays, strings and problem-solving fundamentals.
- Built multiple full-stack MERN applications with authentication, API integration, and responsive UI design.
